GAMA Pole Vault Pit mainly consists of mat body, covering layer and water-proof mantle with Non-tearing Nylon net on top. Main part of mat consists of three-layer heavy foam sponge of 32 High Density and featured by consistent elasticity and softness. The sponge mat is equipped with shaped frame structure in middle-layer to satisfy the requirements on elasticity and cushion for landing human body. The covering layer is 80mm thick and shall be buckled onto assembled mat body. All zippers are not exposed to avoid injury. Mat is covered with waterproof PVC coated Non Tearing Tarpaulin and fitted with embedded zipper and handle assembly on its side and vent holes along its perimeter.

Available in sizes: 600 cm x 800 cm x 80 cm

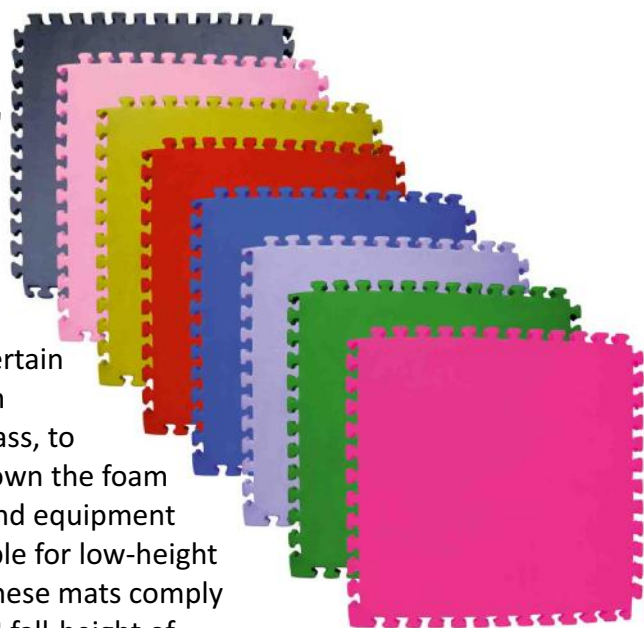

Available in sizes: 680 cm x 500 cm x 80 cm

Other sizes available on request

## GAMT-006 Interlocking/Taekwondo/Judo Puzzle Mat

GAMA Interlocking EVA Puzzle Mat, 20 mm thick offers more impact absorption than Standard Foam Mats, plus they are two-sided, so you can flip your entire mat over at some point to expose the "new" bottom surface. These mats are embossed with our new non-slip basket-weave texture on both sides. Suitable for Martial arts and any strenuous activity like Aerobics, Yoga, Taekwondo, Wrestling, Judo and many more. These mats may be used anywhere indoors, and can be used outdoors in shaded or partly sunny areas on a solid subsurface. Water will not harm them, but exposure to direct sunlight will cause certain colors to fade and shorten their useful life. If you are going to use them outdoors, it is best to provide a cover, like indoor/outdoor carpet or grass, to protect the mats from the sun's UV rays, which will ultimately break down the foam surface. These mats are NOT rated for use under tall outdoor playground equipment such as swing sets, slides and other climbing equipment, but are suitable for low-height plastic play equipment and ground-level structures. Testing indicates these mats comply with Consumer Product Safety Commission guidelines for a MAXIMUM fall-height of 3-feet when used as play area fall protection.

## GAMT-007 Synthetic Pitch Cover

- Type -1:  
Double sided Heat Sealed Non tearing water proof U.V. resistant Tarapaulin with eyelets.
- Type -2:  
Double side Stitched Non tearing water proof U.V. resistant Tarapaulin with eyelets.

## GAMT-009 Yoga Fitness Mat

Yoga mat is most commonly used yoga equipment. The main purpose of the mat is to provide cushioning to the practitioner on a hard floor. But it is helpful in other ways too, it provides grip for your hands and feet and prevents you from slipping while practicing your yoga poses, thus enhancing your safety. These mats are useful in all poses as they improve balance and coordination of body parts

### Special Features:

- Extra Cushioning & Non Slip Surface
- Anti Slip
- **Yoga Mat Size:** 173(Length) x 61(Breadth) Cms.
- **Washing Instructions:** Just Wipe
- **Package Content:** 1 Piece Yoga Mat
- Color as Per Availability
